Personal statement

A conscientious and patient junior programmer with basic experience in programming, currently seeking a new position as a junior developer. A highly motivated and efficient individual, whose thorough and precise approach to tasks has yielded excellent results. Recent achievements with my current university mentor include the development of a new algorithm in LabView for science purposes.

Key Skills

- Java 7 core (standalone non-commercial project)
- Oracle SQL experience
- Basic C++ programming skills (SoloLearn certificate)
- Knowledge of OOP crucial principles
- Superficial experience with algorithms, basic knowledge of data structures
- Basic experience in HTML5 and CSS
- Excellent communication skills, both written and verbal (Upper-Intermediate English)
- Basic knowledge of design patterns
- Familiar with UML

Education

NTUU “Igor Sikorsky Kyiv Polytechnic Institute”

(September 2013 – December 2018)

Faculty of Electronics, Master Degree in Electronics
Electronics and Telecommunications, Multimedia Technology and Systems
Grade point average – 88

School of General Education, I-III degrees, Nr. 323, Gymnasium of international relations

(September 2002 – June 2013)

Hobbies & Interests

I was involved in a local amateur dramatics society, where I volunteered as an actor. I have been involved with this society for two years and very much enjoy being part of the team. I assumed the role of mentor for a half a year education process for some of students in the university and relished the chance to take control of their progress in diploma subject.
